### HB 1217, amending the certification requirements for school nurses.

#### Education: OTP 4-0

NHLIBERTY.ORG

PRO-LIBERTY: This bill expands who may qualify for a job as a school nurse, provided they are a registered nurse.

- In 2016 the legislature added a requirement for all school nurses to be certified by the State Board
  of Education, which created issues in hiring school nurses.
- This bill removes the changes from HB 1193 that created this issue.

HB 1807-FN, relative to exploitation of elderly, disabled, or impaired adults and establishing a protective order for vulnerable adults.

#### Health and Human Services: OTP 3-0

ANTI-LIBERTY: This bill enables vulnerable adults to seek protective orders for abuse, exploitation, and neglect.

- The majority of this bill is intended to protect vulnerable adults from exploitation and abuse, including financial exploitation. While this is well-meaning, the bill in its current form is flawed due to an incomplete definition of neglect and for enabling seizure of firearms for neglect findings.
- The bill allows a vulnerable adult to seek a protective order for neglect, which is defined by new section 173-D:2 VIII as "an act or omission which results or could result in the deprivation of essential services or supports necessary to maintain the minimum mental, emotional, or physical health and safety of a vulnerable adult."
- Other states with similar laws require that the person being accused of neglect have a caregiver role (e.g. Alabama Title 38-9-2, Montana 52-3-803, New Jersey 52:27D-407). The New Hampshire definition would allow a parent to seek a protective order for neglect against an estranged child who maintains no contact with the parent.
- A simple finding of neglect under this bill would require the defendant's firearms to be seized and held by the police for the duration of the protective order (173-D:6 I).
- An amendment that adjusts the definition of "Neglect" to an act or omission by a caretaker which results or could result in the deprivation of essential services or supports necessary to maintain the minimum mental, emotional, or physical health and safety of a vulnerable adult would improve the bill; however even with this change the bill would still enable the seizure of firearms for a finding of neglect. Further, the decision to seize firearms and prohibit future purchases is made in a proceeding where the normal rules of evidence need not apply as 173-D:4 VI, as proposed, includes "In any proceeding under this chapter, the court shall not be bound by the technical rules of evidence and may admit evidence which it considers relevant and material."
