# 2005 Liberty Ratings

---

This is the third report card issued by the *New Hampshire Liberty Alliance* rating the representatives of the General Court. Our first report was released at the 2004 Liberty Dinner to great fanfare gaining us lasting attention and influence.

We used the 2004 report card to determine which representatives to support in the general election, helping 8 of the 9 supported candidates win re-election. We'll continue using the report card in 2006 and beyond, sending the friends of liberty to Concord and returning the foes of liberty to the private sector.

The *Liberty Rating* is the result of hundreds of hours of work by many volunteers who read and analyzed bills, testified before committees, called and wrote their representatives, alerted friends and neighbors to important issues, designed websites, created spreadsheets, typed up reports and numerous other tasks. While this report card bears the seal of the NHLA board, it is the product of our members' commitment to liberty.

This year we have released our largest report card yet, based on over 25 roll call votes. Our hope is to have an impact that will resound throughout Concord for the coming year. Tonight we will be presenting the *Legislator of the Year* award along with highlighting the top and bottom 25 representatives for the 2005 session.

What these votes stand for...

**Pro Liberty Votes (+)** ... take a stand for individual freedom of choice and personal responsibility. They recognize the superiority of freedom over coercion and respect the citizen's right of self-ownership. They recognize that voluntary economic decisions are more productive than the politically motivated transfer schemes of frequently inefficient and wasteful bureaucracies.

**Anti Liberty Votes (-)** ... replace self-governance with interventionist ownership. They assume that agencies backed by legal force are superior to voluntary choices backed by personal accountability. They assume that a better economy can be designed by a central authority that compels communities to pay for policies they could not persuade the people to willingly support.
