- This budget dramatically increases New Hampshire spending going beyond the excessive levels requested by the governor by planning to spend an additional \$300 million beyond his proposed budget.
- The level of spending proposed will require new taxes including a capital gains tax that will forever alter the fiscal landscape of New Hampshire.

HB 2, relative to state fees, funds, revenues, and expenditures.

HB 2

Finance: OTP/A 13-9

ANTI-LIBERTY: This bill includes a tax on earned income, a new tax on capital gains, and sets the state up for future expansion of taxes on income.

- This bill creates a new tax on capital gains in New Hampshire. Capital gains taxes make capital investments more expensive, and therefore less investment occurs.
- This bill contains a new mandated family medical leave program that is funded via a 0.5% tax on earned income. Employees and employers should be free to negotiate benefit programs such as paid family and medical leave insurance without the state forcing all to participate. Employees and employers should be free to negotiate benefit programs such as paid family and medical leave insurance without the state forcing all to participate.
- The commissioner of the Department of Employment Security will be empowered to raise the earned income tax rate or lower the benefits, up to 10%, without legislative approval.
