2021 Liberty Rating

Mid-Term Rating

This is an unweighted mid-term rating based on roll call votes on pro-liberty and anti-liberty bills.

Pro-liberty bills protect individual freedom of choice and personal responsibility; recognize the superiority of freedom over coercion; respect the citizen's right of self-ownership; promote governance that is transparent, accountable, and adheres to the Constitution; and recognize the value of voluntary economic decisions.

Anti-liberty bills replace self-governance with interventionist regulation; assume rules made by agencies backed by force are superior to voluntary choices backed by personal accountability; and assume a better economy can be managed by a central authority that compels people and businesses to pay for policies they may not willingly support.

The Liberty Rating is the result of hundreds of hours of work by many volunteers who have read and analyzed bills, testified before committees, called and written their representatives, worked on our other signature publication, the Gold Standard, and culled extensive data from legislative voting records. We encourage New Hampshire citizens to learn the facts about how their elected representatives are voting in Concord and to use this tool to hold them accountable. Final year end ratings may differ in as in the final rating, bills are weighted by their impacts and thus the raw scores here may differ from final scores.

Motions of Ought to Pass (“OTP”), Ought to Pass with Amendment (“OTP/A”), and to accept a Committee of Conference report (“C of C”) pass a bill. If we recommended yea on these motions, it was a pro-liberty bill; if nay, it was an anti-liberty bill. Motions of Inexpedient to Legislate (“ITL”), **Table**, or **Indefinitely Postpone** kill a bill. Interim Study (“IS”) will result in the matter being studied and effectively terminates the bill for this legislative session. If we recommended yea on these motions, it was an anti-liberty bill; if nay, it was a pro-liberty bill.

Scores are based on roll-call votes. Each scored roll call vote is assigned a weight based on the impact of the bill/vote. This year, we did not include a sponsorship score modifier as the truncated legislative session resulted in a reduced view of all submitted legislation and fewer roll call votes and as a result, there was concern that the sponsorship score would outweigh actual voting performance.

Note that given the limited number of roll-call votes in the senate by mid-term, there could be a substantial difference in the final rating as compared to mid-term.
