HB 135, (New Title) relative to requisites for a criminal search warrant.	UD 495
Judiciary: OTP/A 4-1	HB 135
PRO-LIBERTY: This bill raises the bar for the execution of no-knock warrants.	
 "No-knock" warrants allow law enforcement to use force to gain entry into a residence without giving any prior notice or announcing their entry. This is dangerous both for the police and the potentially-innocent occupants of the household, as the resulting confusion dramatically increases the probability of inadvertent injury or death. Originally conceived as a means to prevent the destruction of evidence, no-knock raids have been misused by law enforcement, executed at incorrect addresses, and resulted in fatalities, both to law enforcement personnel and to civilians. Between 2010 and 2016, 81 civilians and 13 officers 	
 have died during no-knock raids (www.nytimes.com/interactive/2017/03/18/us/forced-entry-warrant-drug-raid.html). Per the New Hampshire Law Enforcement Manual (www.doj.nh.gov/criminal/documents/law-enforcement-manual.pdf) the purpose of 'knock and announce' is to protect people's rights to privacy in their homes and to prevent unnecessary violence that could result from unannounced entries. 	YEA OTP/A
 While rare, there are instances across the country of no-knock warrants being executed at the wrong address due to typographical or other errors that have at times lead to disastrous consequences. As such, a complete prohibition on the ability to execute a no-knock warrant would be preferable. However, this bill is a small step in the right direction. When individuals are not aware of who is trying to break down their door, they can, will, and should use deadly force to defend their property. This bill is a small step to reduce the risks to the public and police of no-knock raids.
