

Scoring Key

Motions of Ought to Pass ("OTP"), Ought to Pass with Amendment ("OTP/A"), and to accept a Committee of Conference report ("C of C") pass a bill. If we recommended yea on these motions, it was a pro-liberty bill; if nay, it was an anti-liberty bill. Motions of Inexpedient to Legislate ("ITL"), Table, or Indefinitely Postpone kill a bill. Interim Study ("IS") will result in the matter being studied and effectively terminates the bill for this legislative session. If we recommended yea on these motions, it was an anti-liberty bill; if nay, it was a pro-liberty bill. Scores are based primarily on roll-call votes but also include a small modifier for sponsorship score.

Bills utilized for Sponsorship Scores

Sponsorship score acts as a capped modifier on the numeric roll call score for legislators. Bills must have appeared in the Activist Alert or Gold Standard to be considered for sponsorship scoring. Selected bills are assigned a raw impact weight based on the impact to liberty. Anti-Liberty bills have the full negative weight applied upon introduction. Pro-Liberty bills receive 1/3 of the weight for each step through the legislature - 1/3 for being introduced in a chamber, 1/3 for passing in chamber that bill was introduced and 1/3 for passing in the other chamber. Co-sponsors each receive half credit while the sponsor receives full credit. Finally, the impact of sponsorship score is capped at +- 5 points with the intent being to allow bill sponsorship to only have a modest impact on the final grade. Bill selection and weight is based on the content of the bill as it was initially submitted and the text and title may have changed since the time that the bill was submitted.
