SENATE SESSION - THURSDAY, MAY 15, 2025

HB 90, relative to the definition of part-time teachers.

HB 90

Education: OTP/A 4-1

PRO-LIBERTY: This bill, with the proposed committee amendment, allows a part-time teacher who works up to 20 hours per week to teach without a Board of Education certificate if they are a full-time or adjunct faculty member at the University of NH or at a NH community college.

**YEA
OTP/A**

- By allowing part-time teachers to bypass traditional credentialing requirements, this bill fosters educational innovation and choice, aligning with the principle that families should control their educational options.
- This legislation reduces the regulatory burden on schools, enabling them to hire based on expertise rather than bureaucratic credentials, which is a step toward more market-driven educational solutions.
- The requirement for criminal history checks and adherence to a code of conduct ensures accountability while still promoting liberty by expanding opportunities for qualified individuals to teach.

HB 557, relative to the information that appears on the school budget ballot.

HB 557

Education Finance: OTP/A 4-2

PRO-LIBERTY: This bill requires that school district election ballots include specific information about the school district's financial and academic status, specifically the cost per pupil and proficiency in English, math, and science.

**YEA
OTP/A**

- The intent of this bill is to facilitate voters making informed decisions.
- School budget expenditures have continued to rise as enrollment has gone down and student performance has leveled off.
- It is unclear if voters know that they are wasting their money on schools that spend more than they ever have, on fewer students, while still achieving lackluster results.

HB 771, relative to funding for open enrollment schools.

HB 771

Education Finance: OTP/A 4-2

PRO-LIBERTY: This bill requires school districts that lose students to an open enrollment school to have a line item in their budget to pay the open enrollment school for that student's tuition.

**YEA
OTP/A**

- If a student chooses to go to a different school than the one they are assigned, their education dollars should follow them to that school.

HB 217, relative to absentee ballots.

HB 217

Election Law and Municipal Affairs: ITL 4-1

PRO-LIBERTY: This bill requires absentee ballot voters to submit information demonstrating citizenship, age, domicile, and identity in order to qualify to vote.

NAY ITL

- This bill improves election integrity by requiring proof of citizenship and residence to vote in New Hampshire state and local elections by absentee ballot.
- This bill provides a responsible and objective means of protecting the quality of an election by requiring additional verification from the applicant for the privilege of voting in absentia.

HB 701, relative to a health care patient’s right to try certain emergency health care treatment options.

HB 701

Health, Human Services and Elderly Affairs: OTP/A 5-0

PRO-LIBERTY: This bill expands on existing "Right To Try" legislation by allowing allopathic or osteopathic treatments for those diagnosed with a life-threatening illness.

- Adults should be able to do whatever they want with their own bodies, even if what they want to do ends up causing themselves harm.
- People with terminal diagnoses should have the opportunity to save their own life without the government getting in the way. This bill increases their treatment options.
- A healthcare provider or doctor should be able to help a terminally-ill patient without the risk of liability for that patient's death.

YEA

OTP/A

HB 712, limiting breast surgeries for minors.

HB 712

Health, Human Services and Elderly Affairs: OTP/A 3-2

PRO-LIBERTY: This bill places limitations on permissible breast surgeries on people under the age of 18 to only those procedures needed to treat malignancy, injury, infection, or malformation and those needed to reconstruct the breasts after such procedures.

- Consenting adults should have the right to do whatever they want to their bodies, including elective breast surgery.
- This bill addresses minors, who are not fully capable of understanding the impact of big decisions they might make. It is an appropriate safeguard to require that they are a legal adult for allowing this type of elective procedure.
