New Hampshire Liberty Alliance

2026 Liberty Rating

This is the annual Liberty Rating issued by the New Hampshire Liberty Alliance. It is based upon roll call votes in the State House and the State Senate. Individual grades for each representative and senator are based on pro-liberty or anti-liberty roll call votes and sponsorship/co-sponsorship for a subset of bills that have been included in our Gold Standard liberty voting guides distributed to Senators and Representatives each session day and/or our activist alert that goes out each week prior to public hearings. Each bill/vote is assigned an impact score by NHLA considering the degree to which the bill or vote impacts (positively or negatively) liberty.

Pro-liberty bills protect individual freedom of choice and personal responsibility; recognize the superiority of freedom over coercion; respect the citizen's right of self-ownership; promote governance that is transparent, accountable, and adheres to the Constitution; and recognize the value of voluntary economic decisions.

Anti-liberty bills replace self-governance with interventionist regulation; assume rules made by agencies backed by force are superior to voluntary choices backed by personal accountability; and assume a better economy can be managed by a central authority that compels people and businesses to pay for policies they may not willingly support.

The Liberty Rating is the result of hundreds of hours of work by many volunteers who have read and analyzed bills, testified before committees, called and written their representatives, worked on our other signature publication, the Gold Standard, and culled extensive data from legislative voting records. We encourage New Hampshire citizens to learn the facts about how their elected representatives are voting in Concord and to use this tool to hold them accountable. This report card serves as a valuable voter guide when these same representatives are running for re-election.

Motions of Ought to Pass (“**OTP**”), Ought to Pass with Amendment (“**OTP/A**”), and to accept a Committee of Conference report (“C of C”) pass a bill. If we recommended yea on these motions, it was a pro-liberty bill; if nay, it was an anti-liberty bill. Motions of Inexpedient to Legislate (“**ITL**”), **Table**, or **Indefinitely Postpone** kill a bill. Interim Study (“**IS**”) will result in the matter being studied and effectively terminates the bill for this legislative session. If we recommended yea on these motions, it was an anti-liberty bill; if nay, it was a pro-liberty bill. Scores are based primarily on roll-call votes but also include a small modifier for sponsorship score.

Five Year Honor Roll (Senate)

No senators qualified for the honor roll.

Five Year Low Scores (Senate)

The following legislators have demonstrated a continued disregard for the principles of liberty, by scoring a D or worse for at least the past five years

Name	26	25	24
Prentiss, Suzanne	CT	F	F

Five Year Honor Roll (House)

Special thanks to the following legislators for their outstanding commitment to liberty, demonstrated by consistently scoring a B or better for at least the past five years.

HB1300	(Second New Title) establishing a school district local tax cap question for the state general election of 2026 and related limitations on central office administrative expenses in school districts.	3	Conference Committee Report	Y	15-8	74

Bills utilized for Sponsorship Scores

Sponsorship score acts as a capped modifier on the numeric roll call score for legislators. Bills must have appeared in the Activist Alert or Gold Standard to be considered for sponsorship scoring. Selected bills are assigned a raw impact weight based on the impact to liberty. Anti-Liberty bills have the full negative weight applied upon introduction. Pro-Liberty bills receive 1/3 of the weight for each step through the legislature - 1/3 for being introduced in a chamber, 1/3 for passing in chamber that bill was introduced and 1/3 for passing in the other chamber. Co-sponsors each receive half credit while the sponsor receives full credit. This calculation is clipped to plus or minus 10.

Finally, the score is scaled to further limit the amount of swing on the final score that sponsorship may have. Currently, this scale factor is 0.5.

This approach allows similar weights to be used for sponsorship while still preventing significant movement away from roll-call derived scores. Note that bill title may have changed since the time that the bill was submitted.
